01 The project

Nineteen acres in Taj Nagri Phase-II, built and fitted out by ADA. The asset is already in place: musical fountains, a 40-minute Krishna Leela laser show, an open-air amphitheatre, a waterbody, eight kiosks and a Tulsi forest. The operator pays a monthly licence fee and retains gate collections.

Term	Position
Authority	Agra Development Authority (ADA)
Contract period	7 years + 4 years extendable (performance + mutual consent)
Selection	Technical evaluation, then forward e-auction on the licence fee
Reserve licence fee	₹2.5 L per month + GST · ₹30 L a year
Escalation	5% a year on the preceding year
Payment terms	First 6 months in advance within 7 days of the work order; then half-yearly in advance
Security deposit	3 months of the licence fee at the winning e-auction bid
Gate tariff	₹20 entry. Fountain and laser show at rates approved by ADA
Asset position	**ADA owns all assets. No permanent structures permitted. Electricity paid direct to discom.**

WHY THIS SITE AND NOT ANOTHER

One block of roughly 25 acres with Agra Chaupati, which E-O-D already runs: a shared grille boundary, internal pathways and gates. F&B comes from kitchens next door, so this site needs counters not a built kitchen, and private events sell into a customer base E-O-D already serves. The two specialise rather than compete — Chaupati food and adventure, Geeta Govind Vatika events and shows.

02 The ask

The facility covers mobilisation only: capital equipment, the security deposit and the first six months of licence fee. Operating cost from month one is met from gate, event and F&B collections.

Application of funds	Amount
Kiosk counters, common seating, shade structures · 7-year life	₹8.0 L
Ticketing, POS and CCTV · 5-year life	₹6.0 L
Horticulture equipment, tools, uniforms, safety kit · 5-year life	₹8.0 L
Signage, branding, wayfinding · 5-year life	₹5.0 L
Pre-operative and contingency · 5-year life	₹3.0 L
Sub-total — capital equipment	₹30.0 L
Security deposit — three months of licence fee, refundable at expiry	₹9.0 L
Advance licence fee — first six months	₹18.0 L
EMD and tender fee	₹1.1 L
Sub-total — mobilisation	₹58.1 L
Opening-season working capital — timing float on the advance licence fee, payroll and electricity	₹41.9 L
Total facility sought	**₹100.0 L**

NO ACTIVITY IS BOUGHT

Every activity on site is brought in by a vendor on rent or revenue share — none of it is funded from this facility, none of it appears as capital expenditure, and the vendor carries its own operating cost. E-O-D books its 20% share of the vendor's takings, not the gross spend.

02 The ask · year one

No part of operating cost is financed. The opening season is met from gate, event and F&B collections.

YEAR 1 REVENUE

₹2.35 Cr

Net of GST

YEAR 1 OPERATING COST

₹2.29 Cr

Not financed — met from collections

YEAR 1 EBITDA

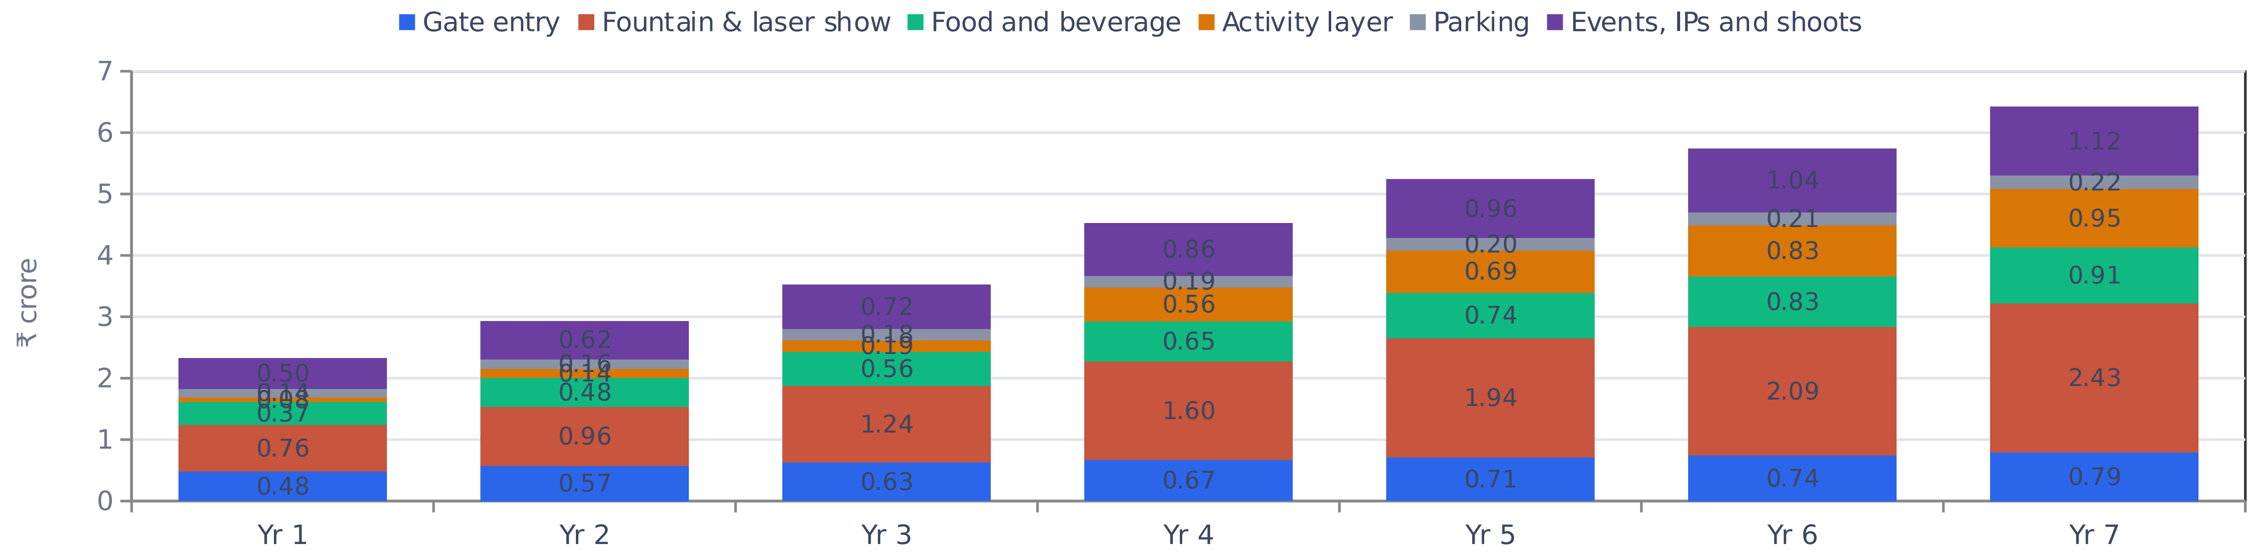
₹0.06 Cr

Covers its own operating cost — thin, which is what the standby limit absorbs

Year 1 revenue by stream	₹ crore	Share
Gate entry	0.48	21%
Fountain and laser show	0.76	33%
Food and beverage	0.37	16%
Activity layer	0.08	4%
Parking	0.14	6%
Public events and IPs	0.32	14%
Private events and shoots	0.18	8%
Total, net of GST	**2.35**	**100%**

03 Revenue model

Seven streams. The first five are footfall multiplied by a capture rate and a tariff, net of GST; the two event lines are booked directly. Every rate is derived in section 08.



YEAR 1 FOOTFALL	YEAR 7 FOOTFALL	REVENUE PER VISIT	GATE TARIFF
3.75 L	**5.80 L**	**₹63**	**₹20**
About 1,027 visits a day	About 1,589 visits a day	Year 1, net of GST. Year 7: ₹110	Fixed by ADA. No escalation

REFERENCE POINT — SUBHASH PARK, THE ZERO-CAPEX PROOF POINT

Same city, same ₹20 gate, one stall, no show, no capex. ₹27 L booked in FY26-27 to date — 5 months, before the season — and expected to cross ₹1.00 Cr for the year on the current run rate.

04 Cost model

Licence fee on a contracted rate, payroll with footfall, the rest with inflation or revenue.

₹ crore	Yr 1	Yr 2	Yr 3	Yr 4	Yr 5	Yr 6	Yr 7

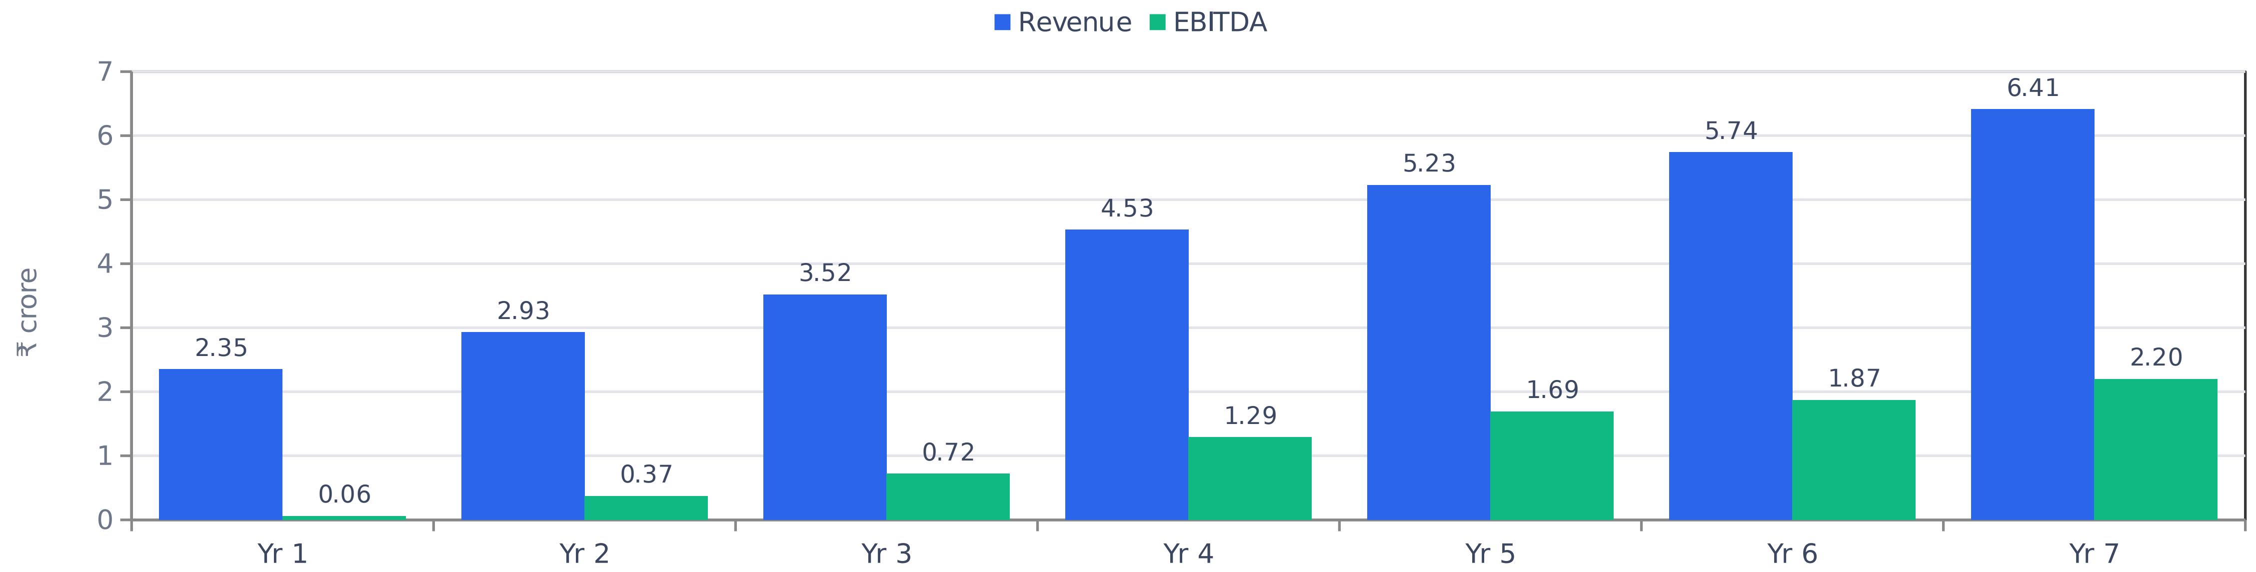
WHAT THE SHOW AMC LINE DOES AND DOES NOT COVER

Servicing and consumable spares only. End-of-life replacement falls on the agency under the RFP and is not provided for — the age of the installed equipment is not known. Open item, section 09.

05 Seven-year projection

The initial term, extension years excluded. Two steps drive the shape: more operators from year 2, and the year-3 reinvestment landing in year 4.



EBITDA POSITIVE FROM

Year 1

₹0.06 Cr in the opening season — thin by design

MARGIN, YEAR 7

34.3%

On a mature base weighted to events

CUMULATIVE EBITDA

₹8.21 Cr

Across the seven-year initial term

05 The year-3 reinvestment

At the end of year 3 the project spends ₹0.40 Cr of its own accumulated cash. No second facility, no equity.

Cash after debt service	Opening	Yr 1	Yr 2	Yr 3	Yr 4	Yr 5	Yr 6	Yr 7
EBITDA		0.06	0.37	0.72	1.29	1.69	1.87	2.20
Tax and maintenance capex		-0.05	-0.14	-0.24	-0.38	-0.50	-0.55	-0.65
Debt service		-0.11	-0.20	-0.18	-0.16	-0.14	-0.13	-0.11
Reinvestment		—	—	-0.40	—	—	—	—
Closing cash	**0.42**	**0.32**	**0.35**	**0.26**	**1.01**	**2.06**	**3.25**	**4.69**

SECOND LASER AND PROJECTION SHOW

₹26 L

Two ticketed shows an evening instead of one — conversion steps from 28% to 34% in year 4

OWNED ACTIVITY INSTALLATIONS

₹14 L

Demountable, per clause 3.3.2. E-O-D books these gross rather than at a 20% share

LOWEST CASH BALANCE

₹26 L

End of year 3, after the build is paid for

WHY THIS SITS BELOW THE DEBT SERVICE LINE

The reinvestment is discretionary and deferrable, so it is struck after the loan is served, not before. The coverage ratios in section 07 do not depend on it, and if the cash is not there the build waits — years 4 to 7 then run closer to the year-3 line and the facility is still serviced.

06 Project cash flow and returns

Unlevered free cash flow. Capital deployed is the mobilisation envelope; operating cost is not financed, so it is not a capital item.

₹ crore	EBITDA	Tax	Maint. capex	Reinvestment	Refunds	Free cash flow
Capital deployed						-0.58
Year 1	0.06	-0.00	-0.05	—	—	0.01

07 The facility

A CGTMSE-guaranteed composite facility of ₹1.00 Cr: a term loan against mobilisation and a small revolving limit for within-year seasonality. No collateral, and no charge over ADA's assets.

Term	Structure
Scheme	CGTMSE CGS-I · ceiling ₹10 Cr per borrower, aggregated across all lenders
Term loan	₹0.58 Cr — mobilisation capex, security deposit, advance licence fee
Working capital limit	₹0.42 Cr — within-year seasonality standby
Interest rate	11.50% · repo-linked; CGTMSE keeps MLI pricing within ~3% of EBLR
Annual guarantee fee	0.60% · on the sanctioned amount in year 1, on the outstanding thereafter
All-in cost	12.10%
Tenor	7 years — proposed, to be agreed with the lender. Matched to the licence period so the loan cannot outlive the concession
Principal moratorium	1 year — proposed, to be agreed with the lender. CGTMSE prescribes neither tenor nor moratorium
Guarantee coverage	75% · ₹0.75 Cr guaranteed
Security	Nil collateral. Hypothecation of assets financed. Director personal guarantee permitted; third-party guarantee is not
Total finance cost over the term	**₹0.45 Cr**

07 The facility · repayment and cover

Headroom of ₹0.51 Cr over the facility sought

NOTE

Licence fee assumption

Every figure in this deck is calculated on a licence fee of ₹36 L a year — ₹3.0 lakh a month against ADA's ₹2.5 L per month reserve — escalating at 5% a year as the RFP provides. The fee is settled by forward e-auction and is not known until it concludes; the model requires re-running against the actual award.

08 Assumptions and method · revenue

Every figure is computed from the inputs below.

Input	Basis	Value
Year 1 footfall	Opening season, marketing-led, ADA's ₹20 gate held	3.75 lakh visits
Year 7 footfall	About 1,589 visits a day	5.80 lakh visits
Growth path	Front-loaded, flattening as the site matures	+16% yr 2, +5% by yr 7
Paid entry ratio	Net of under-5s and free morning walkers	76% → 80%
Show conversion	Share buying a show ticket; steps up in year 4 with the second show	24% → 28%, then 34% → 38%
F&B capture	Share spending at a kiosk	32% → 38%
Activity capture	Share using an activity; rises from year 2 as more operators sign	11% → 15% → 22%
Activity revenue share	On the operator-run part: a share of takings, not the gross spend	20%
Owned share of activities	E-O-D-owned from year 4, booked gross with its own cost	30% → 36%
Vehicle occupancy	Visitors per vehicle, for the parking line	3.1
Gate entry	Fixed by ADA. No escalation modelled across the term	₹20
Show tariff	Subject to ADA approval; escalated every second year	₹100 → ₹130
F&B spend per capture	Ready-to-eat and pre-packaged only; no cooking on site	₹35 → ₹46
Activity spend per capture	Visitor spend at the vendor, before E-O-D's share	₹120 → ₹180
Parking	62% two-wheeler at ₹10, 38% four-wheeler at ₹20	₹10 / ₹20
Events and IPs	Public programming and E-O-D-run IPs, private events, shoots	₹50 L → ₹112 L
GST treatment	Entry, show, activities, parking at 18%; F&B at 12%	Revenue net of GST

08 Assumptions and method · cost and facility

Input	Basis	Value
Licence fee	Winning bid, contracted escalation	₹36 L, +5% a year
Payroll	31 heads at year-1 footfall; scales at 0.35× footfall growth	+7% a year, plus scale
Cost inflation	Electricity, horticulture, AMC, repairs, insurance, IT, contingency	6.5% a year
F&B cost of goods	Supplied from the EAC kitchens at transfer cost, not bought in	44% of F&B revenue
Marketing	Front-loaded for the opening season, then normalised	7.5% → 4.5% of revenue
Corporate overhead	Agra cluster allocation, not a standalone rate	5% of revenue
Depreciation	Straight line over the lives shown in section 02	₹5.5 L a year
Maintenance capex	Deducted in free cash flow, not in EBITDA	2% of revenue
Tax	On EBIT where positive; nil where negative	25%
Free cash flow	EBITDA less tax less maintenance capex	Section 06
Terminal value	Deposit and EMD refund only. No going-concern or extension value	Deposits only
Discount rate	For the NPV in section 06	15%
Interest rate	Scheduled bank, repo-linked	11.50%
Annual guarantee fee	CGTMSE standard slab for the facility size	0.60%
Repayment	Equal principal instalments after the moratorium	7 yrs, 1-yr moratorium
CFADS	Cash available for debt service, taken as EBITDA	EBITDA

09 Risks and open items

Licence fee at auction

No cap on the forward e-auction, and the fee escalates 5% a year on whatever is bid. Every ₹1 lakh a year above the modelled ₹36 L costs about ₹8.1 lakh across the term, so the bid price moves the return further than any operating assumption in this deck. Mitigation: a board-approved ceiling before the auction opens.

Laser and fountain asset condition

The agency inherits equipment of unknown age and must replace end-of-life assets at its own cost, with the onus of proving irreparability also on the agency. Not provided for in the cost model.

Activity operator availability

Through year 3 the whole line is E-O-D's 20% share of operator takings, so it depends on operators taking space and on ADA approving the concept. At ₹0.19 Cr in year 3, losing it does not threaten debt service, and until the year-3 build it carries no capital at risk.

Event revenue concentration

Events are 17% of year-7 revenue and carry the highest margin, because manning and power are already paid for by the gate. A weak wedding season, or an ADA restriction on private bookings, takes contribution out faster than any other line.

Year-3 reinvestment is discretionary

The year-4 step depends on ₹0.40 Cr being spent at the end of year 3 out of accumulated cash. Defer it and years 4 to 7 run closer to the year-3 line — the facility is still serviced, because the coverage ratios are struck before this spend.

Show tariff not set in the RFP

To be agreed with ADA at least ten days before implementation. The model assumes ₹100 in year 1 rising to ₹130 by year 7. The show and activity lines together are 41% of year-3 revenue.

Winning licence fee unknown

Every figure is built on a ₹36 L annual bid and requires re-running against the actual award.

Electricity arrears

Electricity is paid direct to the discom monthly. VAPPL carries ₹2.14 Cr of accumulated arrears across the existing estate, which is a condition precedent to any lender sanction.

Concession renewal

Seven years, extendable by four at ADA's discretion, with the licence fee revisable for the extended term. No extension value is included in any figure in this deck.
